Lighting Collection

When we design lights, we want to blur the line between Function & Fantasy.

Our lights not only remove darkness so that we can perform better in our daily chores, they also eliminate that rudimentary commonplace; void of juxtaposition & playfulness.

A light for every function, every occasion and every mood, that is our motto.

Choose from a vast range of handcrafted lights created out of diverse techniques & material choices such as metal, glass, pottery, leather, paper & recycled fabrics.

BEAD MAZE LIGHT

2024

The Bead Maze light is inspired by the bead maze toy that we all remember from our childhood days. The rich colors of the glass beads, their varying sizes, and the combination of plain and fluted glass reflect the playfulness and joyfulness reminiscent of a child's imagination. The form of the light evokes a sense of nostalgia. This light is a perfect match for modern, vibrant, and bold spaces, adding a touch of whimsy to any environment.

Material – Hand blown premium quality glass in various colors and handcrafted brass fittings.

Dimensions: 39 x 20.5 x 7 inch / 7 x 7 x 30 inch / 21 x 32 x 7 inch

PADMAJA LIGHT

The name Padmaja suggests "The one who is born from a lotus". This beautiful canopy dome light is hand crafted in brass by a group of highly talented master silversmiths. The scene depicted inside the dome is a tranquil lotus pond evoking calmness and abundance, brought to life by the intricately detailed chasing and repousse techniques. The light is available in various surface finishes such as brass matt, brass antique or patina.

The Akshaya Patra Art Light

The epic Mahabharata mention the tale of a legendary vessel called the Akshaya Patra, gifted by Lord Krishna to the Pandavas.

“Draupadi prayed to Krishna; who was depressed to see the condition of his sister Draupadi and the Pandavas; during their exile. So he granted her with the Akshaya Patra, a vessel that would give immense food every day till Draupadi finished eating”. The inexhaustible vessel which would ensure that not just Pandavas, but even those visiting the Pandavas would never have to go hungry. The vessels then saves the Pandavas from the wrath of Sage Durvasa who appear at their doorstep for a meal.

It is our humble effort to present this epic story of the Akshaya Patra in a contemporary setting. The concave dome shape of the light itself represents the Akshaya Patra vessel and the story is created in the interior surface of the dome.

The Akshaya Patra Art Light is a brass concave dome; adorned with hand beaten hammer texture on the exterior and hand painted Kerala Mural painting in the inside surface of the dome, then illuminated from a light source.

The epic story is represented in the vibrant palette of the Kerala mural style. The illumination source is placed in a smaller convex brass dome adorned with chasing patterns and motifs relevant to the story.

Ilke Pendant Lamps

The Ilke lamp is inspired by the Indian Pots that are stacked on top of each other in homes. The assembly of various forms of pots on top of each other have created this magical form. These Lamps can be used in chandelier formation in various combinations.

The form of this lamp is inspired by a "Beacon Of Light", where the light focus is more towards the bottom and a mild glow to its own surface.

The word "Ilke" is a Greek word that means LIGHT.

FINISH : Brass Finish

This pendant lamp takes its inspiration from the historical dome of San Marco Church of Venice. The base of the lamp is highlighted by renaissance windows, mimicking the ones visible at Piazza San Marco. When illuminated, these hand cut windows motifs cast an enchanting light and shadow on the surrounding space. The garlic dome is achieved by the technique of chasing & Repousse done by expert metal artisan.

PYRAMID OF THE SUN

The Pyramid of the Sun Chandelier is an artistic interpretation of the great Pyramids of Aztec and the mysticism that surrounds it. This inverted pyramid structure is handcrafted in brass, decorated with geometric hand cutouts that create a beautiful play of light and shadow.

The surface of this pyramid lamp is decorated with embossed geometrical motifs complimenting the geometrical cutouts that allow the light to spill out. The core pyramid structure is then incased in a faceted wire-frame structure, symbolizing the mystical aura of the Pyramid of the Sun.

The Magical feeling and peace of the Pyramid of the Sun Chandelier with faceted wire frames is unique and one of its kind. The Led Lights fitted on the top base results for the right illumination required. Brass sheet is hammered and hand cut into glorious triangles to create this magnificent light Chandelier.

PATRAKALA LAMP

This Lamp is created by folded sheets of brass. This hand-crafted Pendant Lamp is a manifestation of the Refraction of Light, passing through a medium.

The detections of the moving light is poetically captured by the angles, folds and facets of the brass sheets that compose the light within its core. These lamps are made up of 3 or 4 individual faces that are joined together only by rivets, therefore allowing it to be packed and devoid of any welding marks. The source of light is an LED Edison Bulb.

CHOOORI LAMP

www.sahilsarthak.com

All rights reserved. © Sahil & Sarthak

Choori in Hindi means Glass Bangle. This lamp is inspired from Indian women using clothes hanger for hanging their glass bangles in closet. A light that creates atmospheres with colors and shadows. The colors appeal to mood and the soft clinging sound to senses. It can be used as a single unit or can be an ensemble of many creating an installation of colored lights. The brass hanger are inspired by the shape of a "Jharoka" in Jaipur, Arches in Mughal Architecture, windows of medieval Indian palaces.

MILK CAN OUTDOOR LIGHT

The traditional handmade metal milk cans, rescued from a junk yard and transformed into an outdoor waterproof floor light. This artifact from our past soon faces extinction as it is being replaced by plastic alternatives. An attempt has been made to give it a second life as a beautiful and functional product rising out of our nostalgic world.

KATRAN LAMPS

“About the Collection”

Developed as part of the 'Zero Kilometre™ Design' concept “THE KATRAN LAMPS COLLECTION” is the designer's expression of beauty in frugality. Colored pieces of cloth are the by-products of export houses from a nearby town, which were then woven into ropes by farmer's and their wives trying to make an extra living during off seasons. Katran meaning the numerous waste pieces of colourful cloth that makes up the rope thus each and every product is different in its shades and textures depending on the material available. The same vibrant material has been handwoven into vibrant, colorful inviting lamps creating a beautiful pattern by the play of light and shadow, imbining the true sense of sustainability and green luxury. By bringing together indigenous materials and traditional techniques in a re-contextualised manner, it has been our effort to weave ethics, ethnic, ecology with our contemporary culture.
