## “The Katran™ Collection”

Developed as part of the 'Zero Kilometer™ Design' concept, “The Katran Collection” has been our effort to **weave ethics, ethnicity and ecology** with the contemporary culture. Katran in Hindi means small pieces of left over **colourful cloth** which is the **by-product of cloth mills**. These same cloth pieces are collected by farmers during their off seasons, spun into ropes and sold for the purpose of weaving traditional Indian day beds. Our effort has been to use this same **vibrant material** in an innovative way to create a collection of **contemporary furniture and lights** that are sustainable and beautiful, having a **Glocal** (Global + Local) appeal. This chair is **completely handmade** and brought to life by the ethical interactions between various actors in the system. The Katran Collection is available in **various textures and colours** which has been carefully catalogued by us, giving our customers the possibility to **customize according to their taste** and requirements. In fact none of the Katran furniture are absolutely alike due to their innate diversity of colours and textures, making each piece **exclusive** for their users.

SAHIL & SARTHAK

The Katran Collection has received overwhelming response in India and abroad and continues to be showcased at various international platforms. **This Katran Collection** was awarded by **Elle Décor India** for the **EDIDA 2011** design awards. **Love Chair**, the soul product of the famous katran collection awarded **India Design Forum Awards** for the product category, 2013.

**Katran Rocking Chair** is showcased at **"Value of Design"** in 2017. In collaboration with the China Merchants Group (CMG) the **V&A** is opening a Gallery devoted to 20th and 21st-century international design in a new museum located in the **Shekou** district of **Shenzhen**.

**Katran Classic High Back Chair** in the Project **Pure Gold, Up cycled and Upgraded, Germany** for the year **2017** via IFA, Institute of Culture and International Relations. A 10 year traveling exhibition will display **the most sustainable products** designed in the world in the last decade.

*The form of this chair is inspired by a child's sketch of a cloud; doodled with simple repetitive circular shapes stacked on each other like a floating mass. The colours are inspired by the shades of the sky and can be customized to suit any palette. Special attention has been given to ergonomics where every circular section has been placed meticulously for maximum comfort.*

# DONUT CHAIR 2024

On 7th Anniversary of our company, we have launched Phina Lounge Chair & Ottoman. This chair is all about comfort and after a lot of experimentation with the ergonomics of chair, the desired form is achieved. It is designed in a way that once sat on; it is hard to resist a quick nap. For added comfort, it comes with an ottoman that can complement the chair or can be used as an individual sitting arrangement. Our effort has been to use this vibrant material in an innovative way to create contemporary furniture that is sustainable and beautiful, having a Glocal (Global + Local) appeal. This chair is completely handmade and brought to life by the ethical interactions between various actors in the system.

**MADDERMOON**

**Sahil & Sarthak**  
 INDIA, INDIA

Design duo Sahil Sarthak and Sarthak Sarthak have combined the art of handweaving their traditional textile expertise to create products and objects that are reflections of their "Slow Handmade" design culture.

Their identity is born out of the belief that designing beautiful, functional products and objects should be combined with ethics, to create and produce local traditions and social craftsmanship quality in a region.

During their experience at the Maddermoon they design under the mentorship of legendary Designer Sushil Chhabra, who did not let them even design a table in the table. Their products continue to be showcased at the Maddermoon Design Museum, Milan and are part of the "Sustaining" India Handmade collection at the Museum & Artisan Museum, London in 2018.

## Our Katran Chairs are going POM POM !

The Pom Pom effect to our chairs is our new initiative of re-purposing production waste and taking it to the next level. The fringes that form the pom-poms are the trimmings of the chairs they adorn. The chairs frame is hand crafted, the weaving of the chair is made by traditional day bed weavers and the pom-poms are created by carefully knotting each individual string to the weave of the chair. Unapologetically quirky and swarmingly vibrant, these cozy cuddly chairs are a guaranteed conversation starters.

# Katran Painting: Limited Edition

As children we often craved for the window seat in an aircraft. The thrill was to look out at the mesmerising views of the ocean, fields, forests and clouds pass by. Over several years, these views have been slowly changing into urbanised, polluted or decaying landscapes. The idea here is to capture these views so as to not lose them to time and make people aware of how our planet is changing from what it used to be, and urge a desire within the viewer to protect it. Six different areas were worked upon. These views were broken down into basic lines. The lines repeat, overlap and twist around harmoniously to expose the simplistic beauty of these landscapes and sights.

## UNIQUENESS

Since these pieces are made entirely by hand, none of them come out exactly alike. The same combination of the colours and the exact same lines can never be exactly recreated, nor can the same flow of lines. The colours are dependent on the textile wastes that come from the industry and hence will not always match up to the same shade.

## THE ISLAND

With increasing glacial melting, several islands are under a threat of drowning. Awareness and a reminder of their beauty and importance can surely make a huge difference. This is an aerial view of a small set of islands standing out amidst the vast ocean home to several unique ecosystems and species.

## Katran Painting: Dominique Island, Shoal Lake, Canada

This artwork is an artistic interpretation of the topography and fauna of this beautiful island.

Share your favourite "Pin on the Planet" and we will create your very own customised artwork. It can be the place you were born, a place you call home, place where you grew up, your favourite holiday destination, a place where you fell in love, your honeymoon destination or the place you got married. A special place that is your favourite Pin on the Planet.

In this artwork, nature is depicted by sustainable art. The colour palette is created using recycled waste fabric that is carefully composed accordingly to the landscape colours visible from the sky. The entire piece is hand made by a women's self help group in India who make each piece with lot of love and attention to details.

## THE CROPFIELDS

This view shows manmade but very essential crop fields. These provide livelihood and food for all. Their symmetry and geometry are a sight to behold where flourishing fields are a sign of happiness and progress. And despite all the draughts, it's encouraging to see many villages taking matters into their own hands and making provisions for rainwater harvesting. Even the return and increasing popularity of natural methods of agriculture is a very positive sign.

## THE GREEN FOREST

Deforestation has long been a problem but it's hopeful to see large scale attempts of forestation in various parts of the world, India included. The view shows a river meandering through the interplaying greens of lush foliage.

## “About the Collection”

Developed as part of the 'Zero Kilometre™ Design' concept “THE KATRAN LAMPS COLLECTION” is the designer's expression of beauty in frugality. Colored pieces of cloth are the by-products of export houses from a nearby town, which were then woven into ropes by farmer's and their wives trying to make an extra living during off seasons. Katran meaning the numerous waste pieces of colourful cloth that makes up the rope thus each and every product is different in its shades and textures depending on the material available. The same vibrant material has been handwoven into vibrant, colorful inviting lamps creating a beautiful pattern by the play of light and shadow, imbining the true sense of sustainability and green luxury. By bringing together indigenous materials and traditional techniques in a re-contextualised manner, it has been our effort to weave ethics, ethnic, ecology with our contemporary culture.
